# Data Index

| Column Name | Description |
|---|---|
| p_match | Unique match identifier |
| inns | Innings number (1 = first innings; 2 = second innings |
| bat | Name of the batter on strike for this delivery |
| p_bat | Unique player ID for the striker |
| team_bat | Batting team name |
| bowl | Name of bowler delivering the ball |
| p_bowl | Unique player ID for the bowler |
| team_bowl | Bowling team name |
| ball | Delivery sequence number within the over (raw count, includes wides/no-balls) |
| ball_id | Over.ball identifier, e.g. 0.01 = over 1 ball 1 (raw count, includes extras) |
| outcome | Outcome category of the delivery (no run / run / four / six / out / wide / no ball / bye / leg bye) |
| score | Total runs scored off this delivery (bat + extras) |
| out | Whether a wicket fell on this delivery (True/False) |
| dismissal | Method of dismissal if a wicket fell; blank if no wicket |
| p_out | Player ID of the batter dismissed on this delivery; blank if no wicket |

# Data Index

| Column Name | Description |
|---|---|
| over | Over number within the innings (1-20) |
| cur_bat_runs | Striker's runs scored so far in the innings, after this delivery |
| cur_bat_bf | Striker's balls faced so far in the innings, after this delivery |
| cur_bowl_ovr | Bowler's overs completed so far (x.y format, e.g. 3.4 = 3 overs and 4 balls) |
| cur_bowl_wkts | Bowler's wickets taken so far in the match |
| cur_bowl_runs | Runs conceded by the bowler so far in the match |
| inns_runs | Batting team's total runs so far in the innings, after this delivery |
| inns_wkts | Batting team's wickets lost so far in the innings |
| inns_balls | Legal balls bowled so far in the innings |
| inns_runs_rem | Runs still required to win (2nd innings only; blank in 1st innings) |
| inns_balls_rem | Balls remaining in the innings |
| inns_rr | Current run rate for the batting team (runs per over, so far) |
| inns_rrr | Required run rate to win (2nd innings only; blank in 1st innings) |
| target | Target score the chasing team needs to reach (2nd innings only; blank in 1st innings) |
| max_balls | Total legal balls available in the innings (120 for a full 20-over innings; lower if reduced by weather/DLS) |

# Data Index

| Column Name | Description |
|---|---|
| date | Match date, stored as an Excel serial date number |
| year | Calendar year of the match |
| ground | Venue name |
| country | Host country |
| winner | Team that won the match |
| toss | Team that won the toss |
| bat_hand | Striker's batting handedness (LHB = left-handed, RHB = right-handed) |
| bowl_style | Bowler's specific bowling style code (e.g. RFM, LMF, RM, SLA, LBG) |
| bowl_kind | Broad bowler category (pace bowler / spin bowler / mixture/ unknown) |
| batruns | Runs credited to the batter off the bat on this delivery (excludes extras) |
| ballfaced | Whether this delivery counts as a ball faced by the striker (1 = yes, 0 = no, e.g. wide) |
| bowlruns | Runs charged against the bowler's figures for this delivery (includes wides/no-balls, excludes byes/leg-byes) |
| wagonX | Wagon-wheel X pixel coordinate of where the ball was hit |
| wagonY | Wagon-wheel Y pixel coordinate of where the ball was hit |
| wagonZone | Wagon-wheel fielding zone number (1-8) the shot was hit into; 0/blank if not applicable |

# Data Index

| Column Name | Description |
|---|---|
| bat_out | Whether the striker was dismissed on this delivery (True/False) |
| line | Line of the delivery relative to off/leg stump (e.g. ON_THE_STUMPS, OUTSIDE_OFFSTUMP, DOWN_LEG) |
| length | Length of the delivery (e.g. FULL, GOOD_LENGTH, SHORT, FULL_TOSS) |
| shot | Shot type played by the batter (e.g. PUSH, CUT_SHOT, PULL, DEFENDED, LEFT_ALONE) |
| control | Shot control rating: 1 = in control, 0 = false shot/edge, - = not recorded |
| predscore | Model-predicted final innings score at this point in the match |
| wprob | Model-estimated win probability (%) for the batting team at this point |
| noball | No-ball flag (1 = delivery was a no-ball, 0 = not) |
| wide | Wide runs conceded on this delivery (0 if not a wide) |
| byes | Bye runs scored on this delivery |
| legbyes | Leg-bye runs scored on this delivery |
| bowl_speed_category | Bowl speed. 1 = >140 kph, 2 = 130-140 kph, 3 = 120-130 kph, 4 = 110-120 kph, 5 = 100-110 kph, 6 = 85-100 kph, 7 = 70-85 kph, 8 = <70 kph. Blank where no data available |
| bowl_release_point | Release point of the ball. 1 = >2.0 m, 2 = 1.8-2.0 m, 3 = 1.6-1.8 m, 4 = <1.6 m. Blank where no data available |
| bowl_type | Type of ball bowled by the bowler |
